

Editor's Note

Hello, and welcome to Volume 3-4 of the Economic Analysis. The year 2010 starts with a small change for the Journal. Namely, for the first time we engaged a foreign guest editor - Prof. Dr. Jozef Glova from Technical Faculty, Kosice, Slovak Republic. Due to his excellent contribution to Volume 1-2, The Journal's editorial staff will continue to call periodically foreign guest editors.

In order to meet the standards, set forward by the Ministry of Science and Technology, Republic of Serbia, we have increased year-by-year quality content. In that context, the Editorial Board promise to all our readers and other contributors that our team will do the best to maintain a high standard of the Journal and add more improvements in coming volumes. We expect that mentioned changes and high quality of the Journal would also improve our already not small citation rankings.

It has been a pleasure and an honor to create with a patient staff the Economic Analysis this year. I hope you enjoy and learn from the results, as we have.

Once again, thank you.

Prof. Dr. Mirjana Radović Marković

Editor-in-Chief
Economic Analysis
