

Notes from of Editor-in-Chief

Mirjana Radović-Marković

It has been an enjoyable experience and I have been lucky to have worked with such good colleagues and members of the editorial board since 2009. Looking back, as the editor in chief of Economic Analysis, I realized just how many changes there have been over the last eight years. In the meantime, the Journal has progressed twice and it is now referred as M52 by Ministry of education, science and technological development of Republic of Serbia.

My effort, energy and motivation of previous years will be for sure maintained throughout the coming years by new editor in chief. In line with this, I wish him a lot of success.

Finally, thank you for all your help and trust in me over the years!
